SUMMARY

As a full-stack developer with a background in business administration, I am dedicated to continuous growth and learning. My experience in planning, designing, developing, and testing web applications has allowed me to deliver tailored solutions to meet unique client needs. I am a collaborative and resourceful problem-solver who excels in overcoming challenges and driving innovation. I am excited to bring my expertise and drive to the success of web development initiatives.

Systems and Databases| PostgreSQL, Git
Testing| Jest, Storybook, Cypress, RSpec, Mocha, Chai

EXPERIENCE & PROJECTS

Personal Project | Taqwa   Mar 2023 - Mar 2023

An all-in-one Islamic dashboard   React | Sass | ChakraUI | Aladhan API

- Designed and implemented features such as accurate prayer times, qibla direction, names of Allah, and Prophet's Hadith to serve as a daily reminder for practicing Muslims
- Utilized dynamic rendering based on the user's location to ensure precision and reliability
- Improved user experience by incorporating multiple background themes into the UI design

Final College Project | Teebo   Nov 2022 - Dec 2022

A full-stack social media application for discussing favorite TV shows.   React | Express | Sass | PostgreSQL | Cypress | TvMaze API | Giphy API

- Enabled users to connect with other fans for active discussions about the latest episodes, plot twists, and theories
- Utilized TvMaze API to add any TV show that has ever aired, increasing the app's content library
- Incorporated Giphy API to encourage a wider selection of media content for user input, enhancing the user experience

College Project | Food Ordering App   Oct 2022 - Oct 2022

A full-stack application for ordering food online   NodeJS | Express | PostgreSQL | Sass | Twilio API

- Enabled customers to order food from the website and receive notifications about their order
- Utilized Twilio API to facilitate communication between the customer and the restaurant
- Notified the restaurant when there is an order and when the order will be ready for customer pick-up, improving order accuracy and efficiency

Team Lead/Sales Specialist | Gap Inc.   2017 - 2022

- Maintained and increased customer engagement by providing ongoing customer service and utilizing an articulate problem-solving strategy to resolve issues.
- Increased productivity while managing tight timelines and multiple projects simultaneously.
- Ensured compliance with all operating procedures and evolving policies by meticulously following company protocols.
- Boosted eCommerce sales and revenue by managing and engaging with customers.
